The DMA will allow the Client to electronically submit orders via the authorised appointed user to Peregrine Equities’ trading application.
2. The Client hereby grants Peregrine Equities permission to provide the JSE with the Client’s identity and the specific limitations applicable to the Client in respect of the DMA, and any other information that may be required from time to time.
3. Peregrine Equities retains the discretion to limit the functionality of the DMA provided to the Client in respect of the following, collectively referred to as the “DMA Limitations”:

## **CHANGE OF EQUITIES SETTLEMENT TIMELINES TO TRADE DATE (T) + THREE BUSINESS DAYS**

The JSE will be changing the settlement period from T+5 to T+3 effective Monday 11 July 2016. This move is to make the JSE settlement period consistent with global standards and further enhance South Africa's credibility as an Investment destination. The change will have the additional benefits of increasing liquidity within the equities market, more prudent risk management and a reduction in settlement risk.

The new settlement timelines will give rise to new regulatory requirements and changes with regard to the settlement obligations for all participants in the South African equities market.

Listed below are the revised settlement obligations as communicated by the JSE. These new settlement obligations will be added as an addendum to your current mandate with Peregrine Equities effective 11 July 2016.

### *Settlement Obligation 1*

Settlement will take place in accordance with the following principles:

- 1.1 Each transaction represented by a single contract note between the ultimate buyer and ultimate seller;
- 1.2 Applying the market convention that parties to a transaction have a contractual obligation to cause such transaction to settle on a specific day, settlement day (which is three business days after the trade was done); and
- 1.3 On a net basis per member, per equity security per trade type.

### *Settlement Obligation 2*

- 2.1 A controlled client must sign a mandate in favour of a member before any cash or securities are received by the member.
- 2.2 A controlled client must obtain a receipt from the member when securities in certificated form are placed under the control of the member.
- 2.3 A controlled client must receive a statement on at least a quarterly basis or more frequently if the client so requests and reconcile the equity securities and funds reflected on the statement with his records. Any discrepancies should immediately be raised with their member for investigations.
- 2.4 A controlled client must advise a member of its choice for an elective corporate action as set out in the client mandate or agreed with their member
- 2.5 A controlled client must advise a member if it wishes to receive information from any issuer regarding securities that the client owns and if their email address may be supplied to the Issuer to allow for electronic communication from the Issuer.

### *Settlement Obligation 3*

A controlled client may not place an order to sell equity securities unless:

- 3.1 the securities to be sold are in the custody of the member in uncertificated form; or
- 3.2 the controlled client can evidence to their member that they own the equity securities to be sold and that such securities will be available for settlement on T+3; or
- 3.3 another transaction has been entered into by the client for the equivalent number of equity securities to be available for settlement on T+3 or before; or
- 3.4 the controlled client has made arrangements to borrow the equivalent number of equity securities and the equivalent securities will be available for settlement to take place on T+3; or
- 3.5 a corporate action provides for an equivalent amount of equity securities being available for settlement on settlement date; or
- 3.6 The equity securities are being moved between registers and the securities will be available on the South African register for settlement.

By no later than 16h00 on T+1, a controlled client must ensure that their member is in a position to settle the transaction on T+3, either by providing the necessary funds or equity securities to the member or entering into an arrangement with the member to ensure that settlement takes place on settlement day.

Where the controlled client does not provide the necessary funds or equity securities to the member by end of day on T+1, the transaction will be margined and where margin is called the member may call for the margin from the controlled client. If the transaction is subject to Rolling of Settlement and the Failed Trade procedures, the margin will be held until the future settlement date of the Rolling of Settlement or when the Failed Trade is resolved.

Where a controlled client fails to meet their settlement obligations for a sale transaction, the transaction will be reversed to the members account at 16h00 on T+2 and the member will assume the obligation to settle.

#### *Settlement Obligation 5*

- 5.1 Where the controlled client fails to put the member in a position before 16h00 on T+1 to settle the transaction on settlement day, the member may close out the client's transaction and claim the difference between the original transaction value and the close out value from the client, including interest, subject to any agreement with the client or notification to the client to the contrary, and to any action taken by the Settlement Authority in terms of the failed trade procedures set out in the rules. The member may sell for the account of the client so many of any other equity securities held on the client's account as is necessary to cover any loss that may be incurred by the client as a result of the close out of the original transaction. The client shall also remain liable for any losses, costs and charges incurred, or charge imposed by the member, in respect of any of the aforementioned transactions.
- 5.2 Where the controlled client has not complied with its obligation to put the member in a position to effect settlement and neither the member nor the Settlement Authority is able to effect settlement, the Settlement Authority shall as at 10h00 on T+3 declare the transaction to be a failed trade.
- 5.3 Notwithstanding 5.1 and 5.2 above, the notification at any stage by a controlled client to a member of its inability to put the member in a position to settle a transaction, may result in the declaration of a failed trade by 09h00 on the following business day, if neither the member nor the Settlement Authority is able to ensure that settlement will take place on settlement day by doing a securities lending & borrowing.

#### *Settlement Obligation 6*

- 6.1 If a controlled client is unable to meet his settlement obligations and the member is unable to enter into an arrangement to ensure that settlement takes place, the member must advise the Settlement Authority.
- 6.2 If the Settlement Authority is able to lend the necessary funds or equity securities to the member to ensure that settlement takes place, the member must close out the original transaction before the close of business on the next business day.

#### *Settlement Obligation 7*

Where a member borrows securities from the Settlement Authority to effect settlement on behalf of a controlled client, the controlled client is responsible for any costs that may be incurred by the member in this regard and any penalties imposed on the member by the Settlement Authority. These costs include the costs related to manufactured dividends.

#### *Settlement Obligation 8*
